## INFORMATION AND TIPS FOR PARENTS

### Your child does not yet have a photo OPUS card? He or she is starting high school or has turned 12?

- The photo OPUS card is a must. It serves as proof your child is entitled to pay the reduced fare.
- Perhaps you could take advantage of the STM's photographer at school to have one issued! If you want to prepare ahead of time for the back-to-school rush, you could have your child's card issued as early as August 1, by going to the Photo studio.

- **Your child is registered with Transport adapté?** If he or she is 6 to 15 years old, their Transport adapté identification on OPUS card qualifies to pay the reduced fare. If your child is 16 and over, he or she must obtain a photo OPUS card each year, and must show their Transport adapté card to do so, in addition to the above documents.
- **OPUS cards for students have a limited lifetime.** Their expiration date is on the back of the card.
