**PRINCIPAL'S REPORT**  
April 4, 2022

**SAFE SCHOOL ACTION PLAN**

The Student Services Department of the EMSB will be updating its process for updating the annual Safe School Action Plan (SSAP) for our network of schools. Consequently, we will not be revising our SSAP this June, as we normally would. The new SSAP will be developed in conjunction with new directives in the Fall.

**WEIGHTING OF END OF YEAR EXAMS**

EMSB high schools, including RWA, will be aligning the weighting of end of year exams with the MEQ norms established for this year:

- Cycle 1 (secondary 1/2): exams will be worth 10% of the final result
- Cycle 2 (Secondary 3/4/5): exams will be worth 20% of the final result

**PLANNING 2022-2023**

Based on secondary 5 course selection data (and for the first time in many years), there will be 5 groups in the Science pathway and 1 group in the Arts pathway students for the 2022-2023 school year. Normally, the cohort is divided into 4 groups of Science and 2 groups of Arts. This will have an effect on the number of electives that will be available, though we will make every effort to accommodate first choice selections.

**GRADUATION/ PROM 2022**

At present, our organization committees are planning for a Graduation and Prom, similar to those done in previous, non-COVID years. As always, we will respect all COVID protocols in effect. We are optimistic that any change in directives from Santé Publique will not preclude our students from participating in these celebrations.
