Educational Goals of Trip

Students will enjoy the natural setting of the P'tit Train du Nord bike path from Mont Laurier to St-Jerome (approx 200 km) over two days. They will encounter the flora, fauna, geology and topography of the Laurentians.

They will learn how to travel by bicycle, how to take care of their bicycles and how to set up at a campsite. We will be cooking meals as a group and students will be responsible for various tasks at the campsite.

Students will be asked to reflect on the carbon footprint of their travel and to think about ways that cities and municipalities can encourage more active transportation. This will be a technology-free trip so that students have a chance to disconnect and reconnect with their peers and nature.
